REVENUE RECOGNITION: -

a) Revenue is recognized only when risks and rewards incidental to ownership are transferred to the customer, it can be reliably measured and it is reasonable to expect ultimate collection.
b) Proportionate completion method is a method of accounting which recognises revenue in the statement of profit and loss proportionately with the degree of completion of services under a contract.
c) Construction contracts: -Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognized by reference to the stage of completion of the contract activity at the balance sheet date. The Company uses the 'percentage of completion method' to determine the appropriate amount to recognize in a given period. The assessment of the stage of completion is dependent on the nature of the contract, but will generally be based on the estimated proportion of the total contract costs which have been incurred to date. If a contract is expected to be loss-making, a provision is recognized for the entire loss.
d) The Proportionate completion method is only Applicable when following Conditions are Satisfied: -
    i. All Critical Approval for Commencement of the Project has been obtained, like - JDA, MAP Plan, RERA etc.

j) The amount of advances received and outstanding Rs. 5,30,914.87
k) The retention amount is NIL.
