BHUSWAMI BUILDCON PRIVATE LIMITED

Notes forming part of the financial statements for the year ended March 31, 2024

1 Background

BHUSWAMI BUILDCON PRIVATE LIMITED ('the Company') was incorporated on June 28, 2013. The Company has been essentially engaged in business of developers,builders,real estate and to purchase,sell,acquire,take on lease or or in exchange or in any other lawful manner in accordance with the objects contained in the Memorandum Association of the Company.

1.1 Summary of Significant accounting policies**a) Accounting convention**

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Companies Act, 2013 ('the Act'), read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified).The Financial Statements are presented in Indian Rupees rounded off to the nearest rupee unless otherwise stated. All assets and liabilities have been classified as current or non-current as per company's normal operating cycle and other criteria set out in Schedule III of the Act.

b) Current-non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- i) it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- ii) it is held primarily for the purpose of being traded;
- iii) it is expected to be realised within 12 months after the reporting date; or
- iv) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- i) it is expected to be settled in the company's normal operating cycle;
 - ii) it is held primarily for the purpose of being traded;
 - iii) it is due to be settled within 12 months after the reporting date; or
 - iv) the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.
- Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

c) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

BHUSWAMI BUILDCON PRIVATE LIMITED

Notes forming part of the financial statements for the year ended March 31, 2024

d) Property, Plant & Equipment

Property Plant & Equipment are stated at cost of acquisition, less accumulated depreciation and impairment. Cost comprises of purchase price and any attributable cost such as duties, freight, etc. incurred in bringing the assets to its working condition for its intended use.

Depreciation on Property, Plant & Equipment is provided on the straight-line method over the useful lives of assets as prescribed under Part C of Schedule II of the Companies Act, 2013 except for furniture and fixtures and motor vehicles which is based on internal technical evaluation. Management believes that the useful lives as given below best represent the period over which management expects to use these assets

Depreciation is charged on pro-rata basis for assets purchased / sold during the period.

The estimated useful lives and rates of depreciation have been determined as under:

Asset category	Estimated useful life(in years)
Furniture and fixtures	10
Office equipment	15
Plant & Machinery	15
Vehicles	10
Computers	5

Assets individually costing less than Rs. 5000 are fully written off/Charged to Profit & Loss Account in the year of acquisition.

e) Intangible fixed assets

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortization and any accumulated impairment loss. Subsequent expenditure is capitalized only when it increases the future economic benefits from the specific asset to which it relates.

Intangible assets are amortized in the Statement of profit or loss over their estimated useful lives, from the date that they are available for use based on the expected pattern of consumption of economic benefits of the asset. Accordingly, at present, these are being amortized on straight line basis. In accordance with the applicable Accounting Standard, the Company follows a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use. However, if there is persuasive evidence that the useful life of an intangible asset is longer than ten years, it is amortized over the best estimate of its useful life. Such intangible assets that are not yet available for use are tested annually for impairment.

Intangible assets comprise of computer software and are amortized over a period of 3 years @ 33.33%.

Amortization method and useful lives are reviewed at each reporting date. If the useful life of an asset is estimated to be significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use and disposal. Losses arising from retirement and gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of profit and loss.

f) Revenue recognition

Revenue from the business operations of Business activities n.e.c and other income are recognized and is determined on accrual basis as per the terms of relevant agreement in accordance with the Accounting Standard As-9.

BHUSWAMI BUILDCON PRIVATE LIMITED

Notes forming part of the financial statements for the year ended March 31, 2024

g) Employee benefits**Short term employee benefits**

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and bonus. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Post employment benefits**Defined contribution plans**

The Company's employee Provident Fund is a defined contribution plan. A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions and will have no constructive obligation to pay further amounts. Obligations for contributions to defined contribution plan are recognised as an employee benefit expense in the Statement of Profit and Loss in the year when the employee renders the related service.

Defined benefit plans

Gratuity is a defined benefit plan. The present value of obligations under defined benefit plan is determined based on actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

However The provision of Employee Provident Fund Scheme Act, 1952, are not yet applicable to the company.

(b) Other long term employee benefits. The provision for leave encashment has not been recognized as the same is not applicable according to the agreed pay structure.

h) Foreign exchange transactions

Foreign exchange transactions are recorded at the exchange rates prevailing at the date of transaction. Realised gains and losses on foreign exchange transactions during the year are recognised in the Statement of Profit and Loss.

Monetary assets and monetary liabilities denominated in foreign currency are translated at the exchange rate prevalent at the date of the Balance Sheet and resultant gain/loss, if any, is taken to the Statement of Profit and Loss in the year in which they arise.

i) Taxation

Income-tax expenses comprise current tax (i.e. the amount of tax for the period determined in accordance with the Income tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of the timing differences between the accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date.

Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in the future. However, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realised.

Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability for 15 years under current provisions of the Income Tax Act, 1961. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

BHUSWAMI BUILDCON PRIVATE LIMITED

Notes forming part of the financial statements for the year ended March 31, 2024

j) Impairment of assets

The carrying values of assets are reviewed at each reporting date to determine if there is indication of any impairment. If any indication exists, the amount recoverable towards such assets is estimated. For assets that are not yet available for use, the recoverable amount is estimated at each reporting date. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, if no impairment loss had been recognised.

k) Provisions, contingent liabilities and contingent assets

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. The Company does not recognise assets which are of contingent nature. However, if it has become virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the financial statements of the period in which the change occurs.

l) Earnings per share

The basic earnings/(loss) per share are computed by dividing the net profit/(loss) attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year.

m) Leases*Operating leases*

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset are classified as operating leases. Operating lease charges are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

n) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.
