## CHANDRA SALES PRIVATE LIMITED

# NOTES ATTACHED TO AND FORMING PART OF THE ACCOUNTS AS AT 31ST MARCH, 2024

Note '1' Corporate Information

The company has been incorporated on 1st day of December 1997 under the Registrar of companies Bihar bearing Company Identification Number "CIN: U51109BR1997PTC008247"

Registered Address of the company is:-

204, N.P. Centre

New Dak Bunglow Road

Patna-1

Company is engaged in Construction business.

# Note '2' Significant accounting policies

# Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for interest subsidy received and for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### Use of estimates 2.2

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include computation of percentage of completion which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended, provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed tangible assets and intangible assets.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 2.3 Revenue recognition

Sale of goods is recognized on Accrual Basis.

### 2.4 Provisions and contingent liabilities

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as a contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.5 Tangible assets and capital work-in-progress

Tangible assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalized until such assets are ready for use. Capital work-in-progress comprises of the cost of fixed

FOR CHANDRA SALES PVT. LTD

FOR CHANDRA SALES PVT. LTD

FOR CHANDRA SALES PVT. LTD

NIA AGRAW

assets that are not yet ready for their intended use at the reporting date. Depreciation and amortization

Depreciation on tangible assets is provided on the written down value method over the useful lives of assets. Depreciation for assets as assets. Depreciation for assets purchased / sold during the period are specified on prorate basis as prescribed under Part C of Schedule II of the Companies Act 2013. Depreciation and amortization methods, useful lives and residual values are reviewed periodically,

# Retirement benefits to employees Provident fund

Eligible employees receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary.

Income taxes are accrued in the same period that the related revenue and expenses arise. A provision is made for income tax, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable. Minimum alternate tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of tax credit against future income tax liability, is recognized as an asset in the Balance Sheet if there is convincing evidence that the Company will pay normal tax after the tax holiday period and the resultant asset can be measured reliably. The Company offsets, on a year on year basis, the current tax assets and liabilities, where it has a legally enforceable right and where it intends

The differences that result between the profit considered for income taxes and the profit as per the financial statements are identified, and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount of timing difference. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on enacted or substantively enacted regulations. Deferred tax assets in situation where unabsorbed depreciation and carry forward business loss exists, are recognized only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax asset can be realized. Deferred tax assets, other than in situation of unabsorbed depreciation and carry forward business loss, are recognized only if there is reasonable certainty that they will be realized. Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date. Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

2.9 Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the number of equity shares

### Investments

Trade investments are the investments made to enhance the Company's business interests. Investments are either classified as current or long-term based on Management's intention. Current investments are carried at the lower of cost and fair value of each investment individually. Long term investments are carried at cost less provisions recorded to recognize any decline, other than temporary, in the carrying value of each

### 2.11 Inventories

Inventories are valued at lower of cost and net realizable value. Cost includes cost of purchase, cost of 5 conversion, and other incurred in bringing the inventories to their present location and condition. The method of determination of cost of various categories of inventory are as follows:

Raw Material : At cost Consumable Stores : At cost

**Finished Goods** : At estimated cost or net realizable value whichever is

lower

Goods in process : At estimated cost

2.12 Cash and cash equivalents
For CHANDRA SALES PVT. LTD

Shawly

For CHANDRA SALES PVT. LTD Brality chandry

GRAIN

Cash and cash equivalents comprise cash and cash on deposit with banks and corporations. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily. less and that are readily convertible to known amounts of cash to be cash equivalents.

Previous year figures have been re-arranged and/or re-grouped wherever considered necessary.

2.14 Regulatory Information is attached as annexure to this financial statement.
