Note 1 -SIGNIFICANT ACCOUNTING POLICIES & NOTES ON ACCOUNTS

01.SIGNIFICANT ACCOUNTING POLICIES:

A. Basis of preparation of Financial Statement

The financial statements are prepared under the historical cost convention, except for certain fixed assets which are revalued, in accordance with the generally accepted accounting policies in India and the provisions of the Companies Act 2013

B. Use of Estimates

The Preparation of financial statement requires estimates and assumption to be made that effect the reported amount of assets and liabilities on the date of the financial statement and the reported amount of revenue and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

C. Fixed Assts

Fixed Assets are stated at cost net of recoverable taxes and includes amounts added on revaluation, less accumulated depreciation and impairment loss, if any. All costs, including financial costs till commencement of commercial production, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the fixed assets are capitalized.

D. Depreciation and Amortization

Depreciation is systematically allocated over the useful life of an asset as specified in part-C Of SCH-II of the Companies Act 2013. Depreciation on fixed assets is provided to the extent of depreciable amount on written down/SLM in the manner prescribed in SCH-II to the Companies Act, 2013. over their useful life .

E. Impairment of Assets

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Profit & Loss A/c in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

α

F. Foreign Currency Transaction

- a) Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction or that approximates the actual rate at the date of the transaction.
- b) Monetary items denominated in foreign currencies at the year end are restated at year end rate. In case of items which are covered forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognized as exchange difference and the premium paid on forward contracts is recognized over the life of the contract.
- c) Any Income or expenses difference either on settlement or on transaction is recognized in the Profit & Loss Account except in case of long term liabilities, where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

G. Investments

Current Investments are carried at lower of cost and quoted/fair value, computed category wise. Long Term Investments are stated at cost. Provisions for diminution in the value of long-term investments are made only if such a decline is other than temporary.

H. Inventories

Items of inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any. Cost of inventories comprise of cost of purchase, cost of conversion and other costs including manufacturing overheads incurring in bringing them to their respective present location and condition. Cost of raw materials, process chemicals, stores and spares, packing materials, trading and other products are determined on weighted average basis. By-products are valued at net realizable value.

I. Revenue Recognition

Revenue is recognized only when it can be reliably measured and it is reasonable to expect ultimate collection on the basis of dispatch of goods. In respect of export sales, the revenue is recognized on the basis of Bill Of Lading. Revenue from operations includes sale of goods. Sales tax, excise duty adjusted for discounts (net). Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

J. Excise Duty / Service Tax and Sales Tax / Value Added Tax

Excise duty / service tax is accounted on the basis of both, payments made in respect of goods cleared / services provided as also provision made for goods lying in bonded warehouses. Sales tax/ value added tax paid is charged to Profit & Loss account.

K. Employee Benefit

- a. Short-term employee benefits are recognized as an expense at the undiscounted amount in the profit & loss account of the year in which the related service is rendered.

4

- b. Post employment and other long term employee benefits are recognized as an expense in the profit & loss account in the year in which the employee has been paid the terminal benefits. Actuarial value in respect of post employment and other long term benefits are not determined and accounted for in each year on accrual basis.

L. Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to profit & loss account.

M. Provision for Current and Deferred Tax

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961. Deferred Tax resulting from "timing difference" between taxable and accounting income is accounted for using the tax rates and laws that are enacted or substantively enacted as on the balance sheet date. Deferred tax asset is recognised and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future.

N. Provisions, Contingent Liabilities and Contingent Assets

Contingent Liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statement.
