Cheque Processing System - General Guidelines

To facilitate automated MICR (MICR stands for Magnetic Ink Character Recognition) based cheque processing, instruments passing through clearing are required to be issued in standard format and defined size as prescribed by Reserve Bank of India (RBI). The cheques contained in this book are as per the RBI specifications. Therefore, the size & format of the cheques should not be altered or tampered with.

Collection of Account Payee Cheques

As per RBI directions, banks are prohibited from collecting 'account payee' cheques to the account of any person other than that of the payee constituent. Cheques may be crossed 'account payee' or 'a/c payee', by customers if proceeds of the cheques are intended to be credited only to the account of the payee mentioned therein and not that of any other person.
